

Gary Rolfe, arctic explorer, dog musher and endurance athlete, lives in Greenland with his 12 dogs where fresh food isn't always available. He says:

*"For so long lightweight nutrition meant living off junk sold as "expedition food". With an Excalibur Food Dryer I pack top notch nutrition-rich foods I'd always considered to be impracticable luxuries, like plump fresh fruit and vegetables".*

Gary with two of this year's pups, six-week old Bigness and Gus

## The Excalibur Food Dryer **Tasting Is Believing**

- Prepare and dehydrate your own lightweight expedition food
- Gentle drying preserves nutrition and concentrates flavour giving a superior, natural alternative to pre-packaged shop-bought trail food
- Perfect for dehydrating delicious energy-rich trail snacks, cereal bars, vegetable crisps, meat jerkies, fruits and fruit leathers, soups, casseroles and more
- Ideal for mountaineering clubs, major expeditions, adventure centres, outdoor professionals and expedition outfitters
